#### VIRGINIA OFFSHORE WIND DEVELOPMENT AUTHORITY.

§ 67-1200. *Definitions.*

*As used in this chapter, unless the context requires another meaning:*

*"Authority" means the Virginia Offshore Wind Development Authority created pursuant to this chapter.*

*"Developer" means any private developer of offshore wind energy projects.*

*"Offshore wind energy project" means a wind-powered electric energy facility, including tower, turbine, and associated equipment, located off the coast of the Commonwealth beyond the Commonwealth's three-mile jurisdictional limit, and includes interests in land, improvements, and ancillary facilities.*

The Authority is established for the purposes of facilitating, coordinating, and supporting the development, either by the Authority or by other qualified entities, of the offshore wind energy industry, offshore wind energy projects, and associated supply chain vendors by collecting relevant metocean and environmental data, by identifying existing state and regulatory or administrative barriers to the development of the offshore wind energy industry, by working in cooperation with relevant local, state, and federal agencies to upgrade port and other logistical facilities and sites to accommodate the manufacturing and assembly of offshore wind energy project components and vessels, and by ensuring that the development of such projects is compatible with other ocean uses and avian and marine resources, including both the possible interference with and positive effects on naval facilities and operations, NASA-Wallops Flight Facility operations, shipping lanes, recreational and commercial fisheries, and avian and marine species and habitats. The Authority shall, in cooperation with the relevant state and federal agencies as necessary, recommend ways to encourage and expedite the development of the offshore wind energy industry.
